

A.C.E Migration Service

Worry Free A.C.E. to NetScaler Migration

A couple of years ago, Cisco announced via a press release that it would end of life their A.C.E platform. At that moment they also started to recommend and integrate Citrix Systems' NetScaler application delivery controller. They felt that the Citrix Netscaler could duplicate all the functionality from the A.C.E. offering as well enhance their customer's experience by leveraging some the technical capabilities and features offered via NetScaler.

Spico Solutions, an accredited service provider for Citrix technology, can help you migrate your A.C.E. platform seamlessly into a fully functional Netscaler environment. With over a decade of load balancing expertise, Spico Solutions can safely assist during all phases of the transition freeing up technical resources for other business critical tasks. See our checklist below highlighting the critical aspects of the migration.

Migration Checklist

- ✓ Assessment of current ACE deployment
- ✓ Convert Ace configuration to Netscaler
- ✓ Fully Migrate ACE context
- ✓ Support Live VIP migration
- ✓ Knowledge transfer/education
- ✓ Application delivery improvement harnessing NetScaler capabilities
For Example:
 - Mobile optimized SSL
 - Content Caching plus compression
 - Mobile TCP optimization

Pricing

\$15,000 *Plus Travel and Expenses if engineer is required on-site
