Cribl Deployment Services- Gold
$19,000

Overview
- Get immediate value and custom guidance to get Cribl up and running fast!
- Services are delivered remotely by a certified Cribl expert
- Service will commence within one week of Spico's acceptance of the Customer purchase order and Customer has 90 days to complete from kickoff of service
- Service includes Base Focus and three (3) Customer-chosen Use Cases
- Delivery schedule and planning efforts will be agreed upon between Spico and Customer

Base Activation Focus
- **Architecture** – Base deployment architecture and dependency planning
- **Use Case Planning** – Discussion to cover requirements and desired Use Cases
- **Deployment** – Deploy on Customer-provided infrastructure or Cribl.Cloud -> 1 Leader, 2 Worker Groups; detailed optimizations, and production readiness
- **Source/Destination Configurations** – 1 Source, 1 Destination
- **Documentation** – Document Cribl deployment (Architecture, As Built)

Use Cases
- **Data Onboarding –** onboarding basic data and routing to one destination (up to 5 data sources)
- **Advanced Data Onboarding** – sources requiring custom REST collectors or advanced configurations (up to 2 data sources)
- **Data Archiving -** Configuration and testing of data archive settings, including Log Replay configuration and validation (1 destination)
- **Data Reduction -** Building pipelines to reduce data volume or event size going to a destination system (5 sources)
- **Logs to Metrics -** Building pipelines to convert event log data to metrics (2 sources)
- **Edge Deployment -** Plan and configure the deployment of Edge nodes for data collection (3 fleets)
- **Data Enrichment -** Building pipelines for the enrichment of data sources (3 sources)
- **Format Conversion -** Building pipelines for converting data formats to match destination system requirements (3 sources)
- **Data Routing -** Delivery of data or a subset of data to two or more destinations (10 sources)

Communication
- All Spico customers are provided a dedicated Slack channel for Cribl questions and/or best practices guidance, as needed

Benefits
- Short timeline for deployment
- Dedicated Cribl consultant focused on aligning deployment to your organization's goals
- Clear success criteria to achieve value proposition as quick as possible
